Brilliant Engineering Works is an ISO 9001:2008 certified manufacturer and exporter of Water Monitor, Foam Branch Pipe, and Industrial Nozzle, etc. These equipment offered by us are known for fire resistance and robustness.
Profile

Established in the year 1995, we, “Brilliant Engineering Works”, are a prestigious ISO 9001:2008 certified business organization engaged in manufacturing and exporting a pristine assortment of Industrial Fire Fighting Equipments. Offered array of fire fighting equipment is manufactured using superior-grade raw material, which is sourced from the certified vendors of the market. Further, we employ modern machines, advent technology and sophisticated technologies during the fabrication process. Owing to this, the offered array is widely acknowledged by the clients for robustness, corrosion & fire resistance, longer service life, high strength and immunity against various chemicals. Relying on these attributes, our range is widely used in diverse industrial applications for varied purposes.

We have developed a sophisticated infrastructure at Mumbai, Maharashtra, India, where all the business activities are carried out in a streamlined manner. The infrastructure is well-equipped with all the necessary machines and equipment that are required for the precise & smooth execution of the business operations. Further, the entire machinery is frequently lubricated and updated to assure efficient functioning, thereby securing optimum output. Further, the machines and equipment are handled & operated by expert professionals to assure a safe & secure production period. Additionally, we have developed an in-house quality testing unit, where the entire range of finished stock is thoroughly tested on varied parameters to assure flawlessness and zero-defect. Owing to this, we have been able to earn the trust & confidence of some of the major reputed clients such as New Age Industries, Voltas Limited and Siemens India Private Limited. Besides, we have our clientèle spread all across United States of America and Saudi Arabia.
